Sentence Punctuation Patterns

Summary:
This handout describes eight sentence punctuation patterns with examples.

To punctuate a sentence, you can use and combine some of these patterns. For more information on independent and dependent clauses plus independent and dependent markers, see our handouts on those subjects.

Pattern One: Simple sentence

This pattern is an example of a simple sentence:

Independent clause [.]

Example:
Doctors are concerned about the rising death rate from asthma.

Pattern Two: Compound Sentence

This pattern is an example of a compound sentence with a coordinating conjunction:

Independent clause [,] coordinating conjunction independent clause [.]

There are seven coordinating conjunctions:
and, but, for, or, nor, so, yet.

Example:
Doctors are concerned about the rising death rate from asthma, but they don't know the reasons for it.

Pattern Three: Compound Sentence

This pattern is an example of a compound sentence with a semicolon.

Independent clause [,] independent clause [.]

Example:
Doctors are concerned about the rising death rate from asthma; they are unsure of its cause.

Pattern Four: Compound Sentence

This pattern is an example of a compound sentence with an independent marker.
Examples of independent markers are the following:
therefore, moreover, thus, consequently, however, also.

Example:
Doctors are concerned about the rising death rate from asthma; therefore, they have called for more research into its causes.

**Pattern Five: Complex Sentence**

This pattern is an example of a complex sentence with a dependent marker.

Dependent marker dependent clause[ , ] Independent clause[ . ]

Examples of dependent markers are as follows:
because, before, since, while, although, if, until, when, after, as, as if.

Example: Because
doctors are concerned about the rising death rate from asthma, they have called for more research into its causes.

**Pattern Six: Complex Sentence**

This pattern is an example of a complex sentence with a dependent marker.

Independent clause dependent marker dependent clause[ . ]

Examples of dependent markers are as follows:
because, before, since, while, although, if, until, when, after, as, as if.

Example:
Doctors are concerned about the rising death rate from asthma because it is a common, treatable illness.

**Pattern Seven**

This pattern includes an independent clause with an embedded non-essential clause or phrase

First part of an independent clause [ , ] non-essential clause or phrase, rest of the independent clause [ . ]

A non-essential clause or phrase is one that can be removed without changing the meaning of the sentence or making it ungrammatical. In other words, the non-essential clause or phrase gives additional information, but the sentence can stand alone without it.

Example: Many doctors,
including both pediatricians and family practice physicians, are concerned about the rising death rate from
asthma.

**Pattern Eight**

This pattern includes an independent clause with an embedded essential clause or phrase

First part of an independent clause essential clause or phrase rest of the independent clause [ . ]

An essential clause or phrase is one that cannot be removed without changing the overall meaning of the sentence.

Example: Many doctors

who are concerned about the rising death rate from asthma have called for more research into its causes.
